

Suggested Introduction of Scott “Intake” Kartvedt

Our Keynote speaker today is a passionate aviation professional. Inspired by 'Top Gun' in 1986, he turned his dream into a reality, becoming a Navy fighter pilot with five combat deployments and over 6,300 flight hours.

His achievements include leading the first F-35C Stealth Strike Fighter Squadron and being a respected human performance instructor. His work in cinema includes work on TOPGUN Maverick, and Mission Impossible Eight.

Today, he is a sought-after keynote speaker, sharing his wisdom on cultivating a culture of excellence and "lessons learned" leadership. As President of the Blue Angels Foundation, he donates his time and part of his earnings to help prevent veteran suicide.

Ladies and Gentlemen, please welcome "Intake."
